

Including Children with Hearing Impairments in Early Childhood Programs

Location: SERC, Middletown
Dates: Saturday, May 10, 2014
Event Code: 14-46-155
Time: 09:00 AM - 1:00 PM
Fee: \$40.00

Audience:

PreK, Age 3-5; Early Childhood Teachers, Early Childhood Special Education Administrators, and Staff

*(*Although the learning objectives of an activity are designed for a particular audience, others are welcome to apply and will be accommodated as space allows. Parents and family members, as well as students from Connecticut's colleges and universities, are welcome to apply to professional learning opportunities designed for educators.)*

Presenter:

Debra Kasowitz Sachs, Director/Consulting Educator,
CT Consultation & Resource Center on Deafness and Hearing Impairment,
Woodbridge

Description:

How can early childhood providers integrate a child with hearing loss into the daily routines of the classroom setting? In this session, participants will learn the characteristics of hearing loss and how they impact children's development and participation in classroom experiences; types of hearing loss and their implications for a child's development; the range of communication modalities used by children with hearing loss and current technologies available; and strategies for fully including young children with hearing loss into early childhood classrooms.

Please note SERC is going paperless.
